 - A. Statistics about women's issues and conditions (frequency in your area)
 - B. Information on **programs** and **projects** for women of our County
 - C. Information on legislative initiatives addressing women and girls
 - D. Commissioner initiatives, either combined districts or a focus district each month (or bi-monthly)
 - E. OTHER _____ (**Please provide**)

7. The Woman of the Year Luncheon raises funds to support young women emancipated from the Foster Care system who wish to continue their education. In addition to this luncheon, do you have any ideas for projects that would help support programs or projects throughout the County targeting the issues you have identified?

Please follow your LA County Commissioners on the website and please bring local issues to our attention. During 2014, you are invited to attend at least one meeting before the next luncheon, and do not hesitate to contact your local Commissioners (please get their Commissioner business card for quick reference) when community needs focus on women and girls. We want to empower all our County women to become agents and angels of change.
